PET FOOD & AQUARIUM FEED MANUFACTURER

Nektar Feed Co. is a Turkish company manufacturing and procuring high quality specific products for pets, ornamental fish and aquaculture industry. The Company established in 2001 and currently produces more than 50 products under brands of 'ProArt Pet Food', 'Royal Elite Pet Food', 'MamaSanati Pet Food', 'ArtAkua Ornamental Fish Food' and 'Nektar Fish Feed'.

## **Innovative Production Technology**

The company has a green-field, high-tech production facility operating in accordance with GlobalGAP standards and ISO2200 Food Safety System. It has completed two technological projects to produce and launch high-digestible fish foods by transferring its extensive know-how into production.

Nektar is manufacturing specifically formulated ornamental fish food for a variety of species that designed according to natural feeding habits of the fish. These foods comprise special raw materials such as krill meal, shrimp meal, algae, and yeast; all carefully selected through R&D studies.

While producing Mama Sanati® Pet Foods, we have blended the highest quality ingredients with specific components FROM THE SEA and produced them with great care, accompanied by scientific analysis of our technical team. For the quality criteria of the content we use, we have determined specifications according to both the European Union and our country's standards. We offer our delicious and high quality foods to our beloved pets. The products are highly demanded in Turkey and exported to many country. Nektar has created a very positive reputation in all its markets with high customer satisfaction. High product quality, customer service level, customer specific solutions and the dynamic and professional human resource are the main strengths of our company.

# YOUR PETS DESERVE THE BEST FOOD
